MYTH OF SPEECH & DRAMA

Speech and Drama is not only to teach children acting and public speaking. **IN FACT**, Speech and Drama develops a child's **communicative skills**, **creative thinking skills**, **confidence** and **self-esteem**. Children learn and enjoy different forms of communication and come to understand its two-way process. The activities build a command of the English language and foster an enjoyment of reading. Children learn to share and work together with other children towards a common goal.
